

# BACK TO SCHOOL

It's still summer, but the calendar is telling us that school is right around the corner ...

## GREEN LUNCH KIT

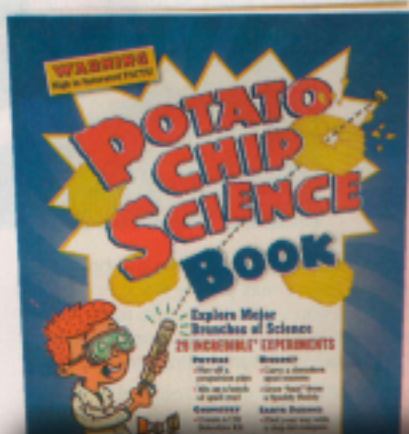

The Waste Free Lunch Kit is good for the environment and simple for mom. Inside the machine washable bag, there is a lunch container that holds a sandwich and two snacks in one convenient package, a beverage bottle with a twist cap and a cleverly designed "spork" (spoon and fork combo). All are tinted in coordinating colors, dishwasher safe and lead- and BPA-free; [www.everydayjun.com](http://www.everydayjun.com).

## PORTABLE PURSE

Now that the kids are organized, simplify your own life with an organized handbag. If your giant bag is the place where receipts and loose change go to die, consider Pouchee. Pouchee is designed to fit inside handbags to keep essentials organized in one place. Pouchee has compartments for credit cards, cell phones, pens and sunglasses, making it easy to find exactly what you are looking for. Available in dozens of colors and styles; [pouchee.com](http://pouchee.com).

## SNACK SCIENCE

Slip some science in while it is still summer with Potato Chip Science (Workman, \$17.95). Packaged in a potato chip bag, this book and kit harnesses the world's most popular snack food to teach a wide range of sciences. Physics, forensics and neuroscience are just a few of the fields of inquiry. Kids can learn about aerodynamics by building a chip-

plane, forensics by setting up some fingerprint powder conservation energy by using a chipmole. When it comes to Potato Science, nobody just one!

## LABEL IT

Want to help kids keep track of their things? Label them. Stuck On You has lots of styles to pick from, with a range of name labels, school labels or iron-on clothing labels. They're bright and easy to read with fun icons to choose from. Stuck On You labels stay stuck in the dishwasher, microwave or washing machine; [www.stuckonyou.biz](http://www.stuckonyou.biz).
